FOREWORD

St. James's Auctions is pleased to present the Indian and Islamic Sale.

The sale commences with an offering of exceptional and rare Islamic pieces. From the early period there is an example of the 'standing caliph' drachm from the time of Abd al-Malik b. Marwan (lot 3003), and the Caliph Orans type, struck in al-Basra in the year 75h (lot 3006). Amongst the Abbaid coins is the remarkable 'bull and horseman' type donative dirham of al-Muqtadir (lot 3052), and two silver dirhams from the Holy City of Makka (lots 3050 and 3051). The excessively rare gold dinar of al-Muntasir, struck at Madinat al-Salam in 247h (lot 3049) also features in the sale. Among the modern coins, there are a number of proof strikings from Saudi Arabia, and two silver issues of half and third ryals of the Qa'iti state, which are the KM plate coins (lots 3153 and 3154).

Within the Islamic section the library of Robert and Elizabeth Darley-Doran is offered for sale, featuring books on Islamic numismatics, archaeology, and history (lots 3158 to 3246). Within this section are some scarce and highly desirable books for those interested in the study of Islamic numismatics.

Following the Islamic section is a substantial selection of Indian coins. Within this there is a superb collection of Indian coins from The David Fore Collection (A.H. Baldwin & Son, Auction 78, 7 May, 2013). These coins were purchased in the David Fore sale and are sold with their original lot cards (lots 3247 to 3424). This section features marvellous coins such as the Victoria silver proof restrike set, 1854, comprised of a two mohurs, mohur, ten rupees, and five rupees (lot 3268). Also featured is the Victoria gold restrike proof mohur, 1879B, which is certified and graded by NGC as Proof 67 * (lot 3278), and the Victoria gold restrike proof half rupee, 1899B (lot 3300). Also featured is the Victoria gold restrike proof half anna, 1891C (lot 3320) and the Edward VII restrike rupee mule 1907B (lot 3340). Also offered for sale is the cupro-nickle pattern set, 1949, which is a superb example, and it is generally considered that only four sets were struck (lot 3424).

Among the Indian coins that do not originate from The David Fore Collection, we are pleased to offer a gold ahmadi of Mysore (lot 3433), and the gold presentation Nazarana Mudra mohur, 1934, which is believed to have been struck for a special event for the ruling family (lot 3434). Also offered is the silver coronation medal of seven rupees, for Ghazi ud-Din Haidar (lot 3435). The Indian section also features the finest graded William IV proof restrike gold two mohurs, dated 1835C (lot 3436). Certified and graded by NGC as Proof 67 Cameo, it is the highest example graded at NGC. The highest graded example at PCGS achieved only Proof 65.

Following the coins, we are pleased to offer a good group of 100 rupees notes (lots 3452 to 3461).

If you are unable to attend the sale, you can bid through our website www.stjauctions.com or our app, or leave bids via www.sixbid.com or www.numisbids.com

INDIAN COINS

A SUBSTANTIAL COLLECTION OF INDIAN COINS FROM
THE DAVID FORE COLLECTION

A.H. Baldwin & Son, Auction 78, The David Fore Collection, 7th May 2013, all with original lot cards.

Please note that all lots have been certified and graded by NGC since their appearance in The David Fore Collection, and some were conserved during this process.

For many years now, the existence of proof 'restrike' coins have caused difficulties for collectors and numismatists alike. Indeed, proof coins of this series were 'originally' produced and were subsequently reproduced in different circumstances from 1835 to 1970. The original proof issues were struck as examples of the contemporary circulating coins, much as they are today, and were often used for display due to their delicate mirrored finish. The restrike coins were produced for esteemed collectors and for museums sometime after the original currency coins were struck. They seem to have been available to collectors 'on order' thus meaning the collector could request a special off metal striking (when the coin is struck in a metal different to the metal used for the original issue, for example, a gold two annas). These coins are often of high quality and were carefully struck with well-prepared dies. These restrikes are often called 'early restrikes'. As one would expect, the existence of 'early restrikes' does imply the existence of 'later restrikes'. These were struck between 1947 and 1970 and were struck to order when the client provided the metal to the mint and was charged a fee for the striking service. Originally the coins available in this period were restrikes of currency coins only, but towards 1960 pattern striking were also available. This period also saw a rising popularity of mule coins, showing obverses and reverses which weren't usually paired on a coin. The existence of three periods in which the 'same' coin was struck sometimes makes it difficult to assign a coin to the correct striking time frame. As such, some of the coins for sale here feature the footnote: Originally identified in The David Fore Collection as an original striking, although subsequently certified and graded by NGC with a ticket marked 'restrike'. We feel it best to give the collector this information in order to make a fully informed decision.

BENGAL PRESIDENCY

- 3247.** **India**, proof/pattern quarter rupee, struck from unfinished dies, 1793, dated AH.124- (Pr.357), *certified and graded by NGC as Proof 63* £600-700

Pridmore states that in this unfinished state they could have served as patterns for both the gold and silver pieces. Two different sets exist, one with a plain edge and one with a grained left edge.

- 3248.** **India**, proof/pattern quarter rupee (1830-1833), edge grained (Pr.185), *certified and graded by NGC as Proof 64* £900-1000

These are known to exist with a sliver of silver raised on the edge, and without this raised edge. The edges were usually filed down at the mint. Why a request for this was made is unknown or even the overall rarity of each, but note of it is made in Pridmore's sale of his Presidency coins.

3249. **India**, proof/pattern half rupee from unfinished dies, 1793, edge grained left (Pr.359), *certified and graded by NGC as Proof 65* £2000-3000

3250. **India**, silver proof rupee (1830-1833), no privy mark (Pr.179; KM.47), *certified and graded by NGC as Proof 63* £2000-2500

Pridmore states that this is 'as the currency issue but no star on the obverse and no crescent privy mark on reverse. Edge Reeded'.

3251. **India**, silver proof/patterns, 1830-1833, grained edge (2): half rupee; quarter rupee (Pr.179, 182, 185), *both certified and graded by NGC, the first as Proof 66 Cameo, the other as Proof 63 (2)* £2000-2500

With old ticket for quarter rupee.

3252. **India**, silver proof / patterns, 1831-1833 (regnal year 45) (3): rupee; half rupee; quarter rupee, all with crescent mintmark of Calcutta (Pr.327, 330, 332), *all certified and graded by NGC, the first as Proof 63, the second as Proof 66 Cameo, the last the Proof 64 (3)* £5000-6000

Three coins from three different sources united over several years to form a set in which the toning matches up quite well.

BOMBAY PRESIDENCY

3253. **India**, proof/pattern rupee, AH.1215, (regnal year 46), obverse dots at 8 o'clock and 10 o'clock, 3 o'clock, 5 o'clock and 7 o'clock, reeded edge, (Pr.333), *certified and graded by NGC as Proof 63+* £2000-3000

Looks like this could be from a slightly earlier era than the modern proof restrikes.

The coin displays bit of unevenness in the metal which may be from die rust, indicating a slightly later strike. Still undoubtedly a 19th century striking.

Originally identified in The David Fore Collection as an original striking, although subsequently certified and graded by NGC with a ticket marked 'restrrike'. The David Fore Collection catalogue stated 'It is quite possible that this was struck sometime early in the war years as a true pattern for the circulating coinage. It is possible that dies were at a high premium due to the war demand of silver, and this die was used for the striking of a few patterns to consider this as a circulating coin. Inspection of the centre of the reverse suggests that this would not have been a hardy design for a heavy coinage and this die was not used again for restrikes until 10 and more years later. It is worthy of serious study'.

INDIAN INDEPENDENCE

3424. **Cupro-nickel Pattern Set**, 1949, comprising silver rupee; half rupee; quarter rupee; two annas (3); anna; piece, GOVERNMENT OF INDIA, lion capital of Asoka, *revs.* man winnowing wheat; type II, worker pouring metal in foundry, building behind; miner with pick inside mine; type I, peacock; peacock without stars; peacock in full plumage; water buffalo; two sheaves of wheat respectively, *all certified and graded by NGC as Proof 66+, Proof 64+, Proof 66, Proof 65, Proof 65, Proof 64, Proof 65, Proof 64 Red Brown respectively* (8) £40,000-50,000

A similar set (except with two different ½-Rupees, this has only one, but only one peacock standing two annas) sold in A. H. Baldwin & Son, Auction 71, September 2011, lot 1609, for £52,000. It is generally considered that four sets were struck and a few of the two annas have come to market since. These designs are far superior to those which were eventually used in India but this is one of the great joys of patterns – the what could have been of these coins.

EAST INDIA COMPANY SOVEREIGN ISSUES

3436. **India**, East India Company, William IV, proof restrike gold two mohurs, 1835C, WILLIAM IIII, KING, bare head r., *rev.* EAST INDIA COMPANY, lion l., before palm (SW.1.4), *certified and graded by NGC as Proof 67 Cameo* £65,000-75,000

The highest example certified and graded by NGC. The only example awarded this grade at NGC. The highest grade awarded by PCGS is Proof 65.

With a rich canary-gold tone, the coin has significant eye appeal, and is one of the most popular rarities of the East India Company series. One of the first East India Company coins to bear the sovereign's portrait on the obverse and the lion and palm to the reverse, a significant change from the previous traditional Indian coins bearing Persian inscriptions to both sides. The first coins struck in September were silver, while the gold and copper started being struck in December. With sumptuous glossy fields and heavy frosting to the bust, the coin is the best example of its type graded by NGC or PCGS.

End of Sale

Notes

(1) St. James's Auctions Limited [the Company] acts as agent for the seller. Sales made by the Company at public auction are sales made on behalf of the seller.

(2) The buyer of any lot will be the highest bidder. In the event of any dispute, the auctioneer shall have absolute discretion to settle the dispute as he thinks best; this may mean re-offering the lot for sale.

(3) The auctioneer shall have absolute discretion to divide any lot, combine two or more lots or withdraw any lot or lots without giving any reason. In the case of a dispute, he may re-offer a lot for sale. The auctioneer also has the right to refuse any bid or bids without giving a reason.

(4) The Company and auctioneer shall have absolute discretion to refuse admission to their premises or attendance at their auction of any person they deem unsuitable, without giving any reason for, or prior notice of, their action.

(5) The minimum increment between bids will normally be 5%. The auctioneer has the right to refuse any bid which is not in line with this increase. He also has absolute discretion to vary this increment as he sees fit.

(6) All lots are subject to a Buyer's Premium of 20.00%, exclusive of VAT, (24%) inclusive of VAT if the buyer is resident in the UK). The symbol 'G' appearing next to a lot indicates the item is 'Investment Gold' and therefore a VAT-registered trader can submit a claim to HM Revenue and Customs to recover the VAT element of the Buyer's Premium. In the case of a lot marked with a dagger (†), import VAT at 5% will be added to the hammer price and will be payable by the buyer if resident in the UK. If the lot is being exported outside the UK, this import VAT can be waived or refunded on proof of export. All lots bought via the bidding platform Auction Mobility are subject to an additional charge of 1.25%, exclusive of VAT, (1.5% inclusive of VAT if the buyer is resident in the UK)

(7) Each bidder shall be deemed to act as principal unless the Company acknowledges in writing prior to the auction that he acts as agent for a named third-party principal. For bidders unable to attend the auction in person, commissions will be executed free-of-charge. Such bids must be written and must be received at least 24 hours before the sale begins. The Company cannot guarantee to execute bids received less than 24 hours before the sale. 'Buy' bids will not be accepted. The Company shall not be liable for any errors or omissions in executing such commissions.

(8) All buyers must, if requested, notify their name and address to the auctioneer and, if required, provide additional proof of identification, bank references or other credit references. All buyers must pay the full purchase price, at the point of collection of purchases, or a fractional deposit as may be determined at the auctioneer's discretion, unless the Company has previously arranged credit terms. Seven working days must be allowed for clearance of personal cheques before delivery can be made unless a prior agreement has been reached. A 2.5% surcharge will be applied to all company cards and non-UK credit card payments.

(9) Ownership of lots does not pass to the buyer until the Company has received payment in full.

(10) All lots, however, are held to be at the buyer's risk from the fall of the hammer. All lots shall be removed by the buyer within seven working days after the date of the sale. Any lots not so removed may become liable to removal, insurance and storage charges. Such lots may, at the auctioneer's discretion, be re-offered for sale at auction or by private treaty without further notice to the buyer.

(11) All lots are offered for sale subject to any reserve price that may be imposed by the seller. The seller may not subsequently change the reserve without the agreement of the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at 80% of lower estimate, with auctioneer's discretion. Unless reoffered for sale, the collection of unsold lots shall be the responsibility of the seller.

(12) (a) Lots are sold as shown with all faults, imperfections and errors of description and lack of authenticity. The Sale of Goods Act 1979 does not apply to the sale of any lot. Neither the Company nor the seller shall give any warranty to any buyer in respect of any lot or be liable for any fault or error of description or lack of genuineness or authenticity of any lot. All statements as to items sold, whether made in catalogues, during the course of the auction or otherwise, are statements of opinion only and are not and shall not be taken to be statements or representations of fact. The Company reserve the right in forming their opinion to consult and rely upon any expert or authority considered by them to be reliable. Coins are graded to accepted UK standards to the best ability of our specialists. You acknowledge that the grading of coins is subjective and may vary from specialist to specialist, as the process is by nature an art and not a science. For this reason, we do not automatically accept and are not bound by the opinions of third party coin grading services for any purposes including before and after the sale of a lot.

(b) Refund policy – notwithstanding the foregoing, if any lot should be proved by the buyer to be not genuine or authentic, or to have been wrongly described in any material respect, the buyer may reject the same provided that he has given notice in writing of his intention so to do and shall have returned the same to the Company within one month from, and in the same condition, as at the date of sale. If the coin was in a plastic holder at the time of sale, we cannot accept its return if it has been removed from that holder. In addition, any items in graded holders are sold as is and can only be returned if deemed as fake. The onus of proving a lot to be not genuine or authentic or to have been wrongly described shall lie with the buyer. Proof of the inability of any recognised expert or authority to express a definite opinion shall not discharge such onus. If the buyer shall discharge such onus, the auctioneers shall rescind the sale and repay to the buyer the price paid by him. Save as provided herein, the Company shall not under any circumstances whatsoever be liable for any costs, expenses or damages (whether direct, indirect, special or consequential) incurred or suffered by the buyer in respect of any lot, whether or not as a result of any fault, imperfection, error or description or lack of genuineness or authenticity, including but not limited to loss of any kind of profit whatsoever. The buyer will not be entitled to claim interest on the amount due to him. The buyer shall not be entitled to a refund for any lot for any reason save as set out in this clause 12(b).

(13) Save as provided in the preceding paragraph of these conditions buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. The Company cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneers' premises.

(14) As stated in paragraph (1), the Company acts solely as agent between buyer and seller and shall not be held responsible for any default by either party or for any action or claim that may arise in connection with any lot.

(15) Any part of the purchase price still outstanding after the auction, in line with the terms of paragraph (8), shall be paid in full within thirty days of the date of the auction. Without prejudice to any other rights, the Company reserves the right to charge interest on any overdue payment at a rate of three per cent per month. In the event that the company shall have paid the seller (normally 35 days after the sale) and part of the purchase price is still outstanding, title to the lot will pass to the Company. The Company shall then have the right to sell any other goods belonging to the buyer and held by the Company for whatever reason at such a price that the company, in its absolute discretion, thinks fit. The buyer shall also reimburse the Company for any additional costs incurred in this process.

(16) Buyers accepting commissions from third parties do so at their own risk. They remain responsible to the Company for full settlement according to these conditions

(17) Privacy Policy - We may collect and process information you give to us such as your name, address and references. We will use this information to carry out our obligations arising from any contracts entered into between you and us and to provide you with the information, products and services that you request from us or that we offer. We may share your personal information with any member of our group, which means our subsidiaries, our ultimate holding company and its subsidiaries, as defined in section 1159 of the UK Companies Act 2006. We may disclose your personal information to third parties in the event we sell or buy any business or assets in which case we may disclose your personal data to the prospective seller or buyer or such business or assets or if we are under a duty to disclosure or share your personal data in order to comply with any legal obligation or in order to enforce or apply our terms of use. You have the right to ask us not to process your personal data for marketing purposes.

(18) By making a bid, the buyer acknowledges his acceptance of these conditions and agrees to be bound by them.

(19) If any buyer fails to comply with any of these Conditions, the lot or lots in respect of which the failure is made may at the discretion of the Company be put up again and resold. The damages recoverable from the defaulting buyer shall include, but not be limited to, the auctioneers' expenses and commission in respect of the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained on the first sale.

(20) A variation of these Conditions shall only be binding on the Company and the seller if it is made in writing and signed by a duly authorised representative of the Company.

(21) These Conditions shall take effect and be construed in accordance with the provisions of English law.
